

BLACK BEAR PAW

MY HANDPRINT

THEOLOGY OF THE BODY TIDBITS...

Your child is learning that as humans we are different from animals because we are made in the image and likeness of God. We have intelligence and can choose our actions. Have your child compare the paw print to his/her hand print. A bear paw has sharp claws so it is good for digging and fighting. Reflect how our hand can do many things because we have fingers and a thumb that can hold tools, but that paws are good for just a few things.

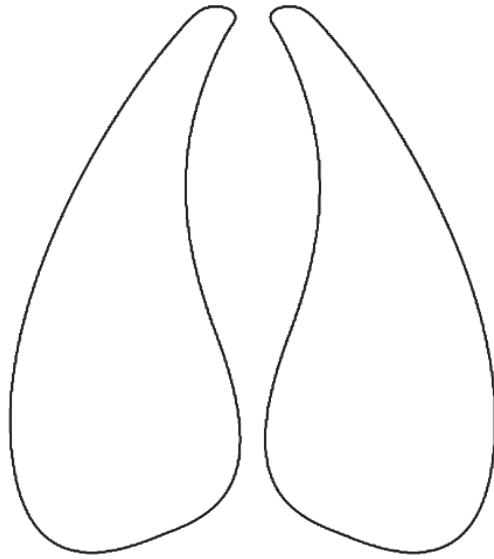

DOG PAW

MY HANDPRINT

THEOLOGY OF THE BODY TIDBITS...

Your child is learning that as humans we are different from animals because we are made in the image and likeness of God. We have intelligence and can choose our actions. Have your child compare the paw print to his/her hand print. A dog paw is good for running. Reflect how our hand can do many things because we have fingers and a thumb that can hold tools, but that paws are good for just a few things.

DEER PRINT

MY HANDPRINT

THEOLOGY OF THE BODY TIDBITS...

Your child is learning that as humans we are different from animals because we are made in the image and likeness of God. We have intelligence and can choose our actions. Have your child compare the hoof print to his/her hand print. The hard and sharp deer hoof keeps a deer steady on his feet even in slippery places. Reflect how our hand can do many things because we have fingers and a thumb that can hold tools, but that hooves are good for just a few things.
